# THREE SEASONS AYURVEDA

Pranayama

"Pranayama is the science of breath, which leads to the creation, distribution and maintenance of this vital energy" BKS Iyengar

## What is Prana? What are Vayus?

Prana is breathe and manifests in all the energy of our universe: physical, mental, intellectual, sexual & spiritual.

Prana comes from the breath and has 5 sub-categories known as vayus, and they are:

**Prana-** Coming in

**Samana-** From the periphery (outside) to the inside

Vyana- From the core out to the periphery

**Udana-** Up and out

Apana- Down and out

# What are the Nadis?

Nadis are tubular organs, ducts or channels that carry all the products in our bodies including cosmic energies, consciousness & spiritual aura as they connect the breath to the nervous system.

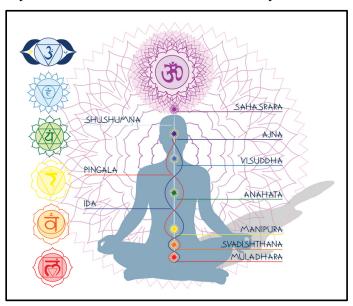

#### Susumna-

Runs through the spine from the tailbone the crown chakra, its function is **Sattvic** (purity)

## Ida

Left nostril, lunar, cooling and is considered **Rajasic** (turbulence)

**Pingala-** right nostril, solar, heat & is considered **Tamasic** (darkness)

#### What are the Chakras

Chakra means a wheel & they radiate energy throughout the body and are located at vital centers along the spine connecting with the Nadis
